- Modification of an Existing Fire Alarm System *
- Installation or Modification of Automatic Fire Extinguishing System
- Installation of a Security or Controlled Access Gate

- * Will require third party review of plans
- * Knox Box
- * Knox FDC Caps

Date of Application _____

Fee Amount Paid: _____ Receipt No. _____

Company: _____

Permit Address: _____

Application Made By: _____

Permit Application does not constitute approval of your plans nor does it imply permission to begin work. Work done without the issuance of a permit is in violation of the City of Sherman Fire Code.

The permit process consists of five steps:

1) Complete this application and pay the permit fee.

<i>Automatic Fire Sprinkler System, Underground Fire Line</i>	<i>\$50.00</i>
<i>Automatic Fire Sprinkler System, Above Ground System</i>	<i>\$50.00</i>
<i>Automatic Fire Extinguishing System</i>	<i>\$50.00</i>
<i>Controlled Access Gate</i>	<i>\$50.00</i>
<i>After Hours Inspection</i>	<i>\$77.00</i>
<i>Re-Inspection (per occurrence)</i>	<i>\$35.00</i>

You will be issued a receipt for your payment. This receipt is not the permit. No work may begin until the permit is issued by the Fire Marshal.

2) Submittal of Plans. Some system plans require a third party review.

See attached information regarding third party review.

3) Pick up your permit.

Bring your approved plans and comments to the Fire Marshal's Office, 318 S. Travis. The Fire Marshal will issue your permit. The permit will include any conditions for the work. A copy of this permit must be posted on the job site until the work has been approved by the Fire Marshal.

4) Begin your work.

Work must be done according to the conditions on your permit. Work must be done by a licensed fire contractor.

5) System Acceptance.

Upon completion of your work, you must call the Fire marshal to schedule an inspection. Please allow at least twenty-four (24) hours notice for this inspection. If a re-inspection is required, this fee must be paid prior to scheduling the re-inspection.

Fire Marshal's Office
Sherman, Texas

In an effort to provide the citizens of Sherman with the most reliable and dependable alarm systems and sprinkler systems, we have elected to have an independent agency complete a thorough plan review. Documents subject to review will include fire protection, suppression, and detection and fire alarm systems. Reviews will include installation, modification, additions, and changes for new and existing facilities within the jurisdiction of the city of Sherman. The agencies listed below may be used for plan review:
